DES FEMMES

# Why the STEAR App?

Based on our research conducted in Ottawa:

- **93% of survivors** had been deprived of access to their own money by their abusers
- **90%** had any financial decision-making power taken away from them
- **74% of social service providers** indicated there is a lack of available resources and systems for assisting survivors of Economic Abuse.

# STEAR prioritizes safety and accessibility

- Secure and untrackable platform
- User-friendly and privacy-focused
- Educational materials
- Resource hub for survivors

# Security Measures

## Set your pin

Please set a 4-digit pin.

This pin is needed to keep your information private and secure from anyone around you who may want access to your information.

To exit the app quickly, press exit and the app will switch to a mock home organizing page with images of decor and recipes.

**NOTE: If your partner forces you to unlock the app, use the code "0000" to pull up a fake page that looks like you are organizing your home.**

**For this reason, do not choose "0000" as your pin.**
